

**THE OFFICE OF ACADEMIC, RESEARCH, INNOVATION
AND STRATEGIC PARTNERSHIPS (ARISP)
AFE BABALOLA UNIVERSITY, ADO EKITI**

RESEARCH AND GRANT OPPORTUNITY

July 2020

In order to promote funded research and active international collaboration by all researchers at Afe Babalola University, Ado Ekiti (ABUAD), The Office of Academic, Research, Innovation and Strategic Partnerships (ARISP) provides this monthly compilation of external funding opportunities including grants, fellowships, awards and prizes.

For further information or requests, please contact: dvc.arisp@abuad.edu.ng

COVID-19 RESEARCH FUNDINGS

Please note that for some of these calls there are no specific deadlines. Applications will be accepted and reviewed on a rolling basis.

The sponsor can decide to cap the number of applications, so please make sure to check the websites for updated information.

Many other calls stay open only for a few weeks, hence they are not included in this list.

BILL & MELINDA GATES FOUNDATION

[COVID-19 Therapeutics Accelerator](#)

The Foundation is prioritizing proposals based on the following scoping criteria: solutions should have suitability for low-resource settings, with global access through prompt launch and affordability in low- and middle-income countries (LMIC) with a focus on vulnerable populations.

CISCO RESEARCH CENTER (CRC)

[Pandemic/COVID19 Science, Technology and Social Impact](#)

Areas of interest under this call include but are not limited to: Mathematical models for the spread and the impact of pandemics; Scalable simulation techniques for pandemics; Biomedical/Nano sensor devices for detecting symptoms and agents; Algorithms for rapid exploration of the drug screening and discovery workflows; Advanced computational biology techniques for sequencing, detecting viral evolution; Algorithms and systems for contact tracing; Algorithms and recommendation systems for curating media and news; Collaboration techniques for more effective health, and efficiency during pandemics; Improved identity and security techniques; Distributed Ledgers, their applications and their governance for and during pandemics; Pandemic data science.

MOZILLA

[COVID-19 Solutions Fund](#)

As part of the COVID-19 Solutions Fund, we will accept applications that are hardware (e.g., an open source ventilator), software (e.g., a platform that connects hospitals with people who have 3D printers who can print parts for that open source ventilator), as well as software that solves secondary effects of COVID-19 (e.g., a browser plugin that combats COVID-related misinformation).

OPEN ROAD ALLIANCE

[Direct COVID-19 Response - Charitable Grant](#)

This grant is for organizations engaging in direct COVID-19 response. We will prioritize organizations and activities that have a clear and direct role in 'flattening the curve' and thus limiting, shortening, or minimizing the economic and social, as well as health effects of the pandemic. Slowing and stopping the spread of COVID19 is directly linked to reducing and limiting the economic and social hardship our communities are experiencing.

MERCK FOUNDATION

[Research Grants Program 2020](#)

Grants are available in the area of pandemic preparedness/fighting new emerging viral infectious disease. Projects proposals that leverage modern technologies to create new breakthrough solutions to be more prepared for pandemic outbreaks or work towards existing solutions that could help to fight emerging viral infections will be considered.

Deadline: There is no fixed deadline, since applications will be reviewed on a rolling basis in order to provide a quicker response in these challenging times.

Grants – Health and Life Sciences

CYSTINOSIS IRELAND

[Cystinosis Research Seedcorn Funding Programme](#)

Research can be in any area of cystinosis, and researchers that are new to the field of cystinosis are particularly welcome to apply. Applications are encouraged from researchers in scientific fields other than Biosciences and Clinical Sciences where the potential impact or application of the proposed research is relevant to patients and families living with cystinosis.

Deadline: 31 July 2020

INTERNATIONAL MYELOMA FOUNDATION (IMF)

[Brian D. Novis Junior and Senior Research Award](#)

These grants go to researchers working on multiple myeloma and related disorders including smoldering myeloma, monoclonal gammopathy of undetermined significance, and immunoglobulin derived amyloidosis.

Deadline: 1 August 2020

PARTNERSHIP FOR CLEAN COMPETITION (PCC)

[Research Grants Program](#)

The emphasis is on original work that focuses on improving existing analytical methods for detecting certain drugs, developing new analytical methods to test for substances not currently detectable and discovering cost-effective approaches for testing widely abused substances across all levels of sport.

Deadline: Pre-Applications by 1 July 2020, 1 November 2020

EMDR RESEARCH FOUNDATION (EYE MOVEMENT DESENSITIZATION AND REPROCESSING)

[Research Grants](#)

These grants support research on EMDR. The priority areas are: advancing evidence-based practice; addressing the global burden of trauma; building clinical evidence.

Deadline: 1 July 2020, 1 February 2021

DRAVET SYNDROME FOUNDATION

[Research Grant Program](#)

These grants are intended for established, experienced, independent investigators affiliated with a research or academic institution whose proposed projects investigate hypotheses directly related to Dravet syndrome.

Deadline: 4 September 2020

LUPUS RESEARCH ALLIANCE

[Global Team Science Award](#)

This grant will support interdisciplinary, collaborative, and highly synergistic projects that push the boundaries of innovation and bridge research and clinical efforts in lupus. The successful teams will

focus on unraveling human lupus heterogeneity by applying cutting-edge technologies to address critical questions that could bring about breakthroughs in lupus care, research or drug development.

Deadline: Letters of Intent due by 15 September 2020

THRASHER RESEARCH FUND

[Early Career Award Program](#)

The purpose of this program is to encourage the development of medical research in child health by awarding small grants to new researchers, helping them gain a foothold in this important area.

Deadline: Concept submission by 15 September 2020 (12:00 pm MT)

ANGELMAN SYNDROME FOUNDATION, INC. (ASF)

[Call for Proposals](#)

Highest priority will be given to pilot projects to test new ideas about pathogenesis and therapeutics of Angelman syndrome, translational research and clinical research studies. Of interest to the ASF are studies related to communication, behavioral issues and identification of issues and treatments that impact the daily life of people with Angelman syndrome and their families.

Deadline: 15 April, 15 October 2020

ALZHEIMER'S DRUG DISCOVERY FOUNDATION (ADDF)

[Drug Development Program](#)

The goal of this RFP is to develop therapeutics for Alzheimer's disease and related dementias. The focus is on building preclinical evidence in animal models and on advancing lead molecules to the clinical candidate selection stage.

Deadline: Letter of Intent by 10 April, 10 July, 9 October 2020 (5:00 pm ET)

[Prevention Beyond the Pipeline](#)

Supports comparative effectiveness research, prevention clinical trials and epidemiological studies that probe whether the use/choice of drugs alters the risk for dementia or cognitive decline. Funding priorities: consortium of cohorts for Alzheimer's prevention action; comparative effectiveness research; cognitive decline and cognitive reserve.

Deadline: Letter of Intent by 10 July, 9 October 2020 (5:00 pm ET)

[Neuroimaging and CSF Biomarker Development Program](#)

This call supports the development of cerebrospinal fluid (CSF) and neuroimaging biomarkers for which there is a clear clinical need in Alzheimer's disease and related dementias. Novel biomarkers of neuroinflammation and synaptic integrity are considered high priority.

Deadline: Letter of Intent by 10 April, 10 July, 9 October 2020 (5:00 pm ET)

[Target Validation Pathfinder Grant](#)

This scheme provides funds for small, translational research projects that show potential for an application to the Dementia Consortium or collaboration with the ARUK Drug Discovery Alliance.

Deadline: 11 November 2020

FANCONI ANEMIA RESEARCH FUND (FARF)

[Research Grants](#)

FARF seeks to fund interdisciplinary and translational research efforts that will lead to rapid discovery and development of therapies or strategies that treat, control or cure Fanconi anemia.

Deadline: Investigators are invited to submit Letter of Intents at any time. Full proposals will be by invite only.

BHD FOUNDATION (BIRT-HOGG-DUBÉ SYNDROME)

[Research Grants](#)

Successful research projects need to meet one or more of the following criteria: i) advanced understanding of the molecular and cellular biology of the Folliculin protein; the clinical manifestation/biology of BHD syndrome and/or the epidemiology of BHD syndrome; ii) maximizing the benefits of current research; iii) working towards technological innovation in therapeutics.

Deadline: Pre-proposals should be sent to the foundatiXCon (there are no specific deadlines).

MERCK

[Biopharma Speed Grant](#)

Pre-clinical researchers in the fields of oncology, immuno-oncology, autoimmune disorders and drug discovery technologies are invited to apply to this fast funding program.

Deadline: If the application is successful, grant funding will be made available within three weeks of the submission. There are no specific deadlines.

DUTCH FSHD FOUNDATION

[Research Grants](#)

The FSHD (Facioscapulohumeral muscular dystrophy) Foundation supports solid scientific research into the causes of FSHD, in order to find treatments and develop solutions that help improve patients' quality of life. The FSHD Foundation provides grants for research projects meeting the goals stipulated by the foundation.

Deadline: Applications may be submitted at any time; there are no deadlines.

A KIDS' BRAIN TUMOR CURE FOUNDATION

[A Kids' Brain Tumor Cure \(AKBTC\) Research Grant](#)

Proposals related to basic and translational projects that can advance understanding of the underlying biology of the development and treatment of PLGA (Pediatric Low Grade Astrocytomas) tumors will be considered. Investigators in the early years of their careers are encouraged to apply.

Deadline: Investigators are invited to submit a letter of intent at any time throughout the year.

A-T SOCIETY

[Financial Support](#)

Supports research into Ataxia-Telangiectasia (A-T) including both direct financial support and that provided by other means (organizing and supporting conferences/meetings, sharing information, administrative support).

Deadline: Anyone considering submitting a grant application can contact A-T Society for an initial discussion.

F. HOFFMANN-LA ROCHE LTD - GENENTECH

[Scientific Project Support](#)

Provides funding for general research, translational research, other research or development projects, and/or other initiatives of research organizations, labs and academic institutions. Research projects must focus on several types of cancer, multiple sclerosis, hemophilia, etc.

Deadline: Applications can be submitted anytime during the year (the system will re-open on 2 January 2020).

MERCK SHARP & DOHME CORP. (MSD)

[Merck Investigator Studies Program \(MISP\)](#)

To advance science and improve patient care through the provision of drug/vaccine and/or total/partial funding, by supporting high-quality research that is initiated, designed, implemented and sponsored by external investigators.

Deadline: No specific deadline; the committee meets regularly.

PARTNERSHIP FOR CLEAN COMPETITION (PCC)

[Micro-Grants Program](#)

The PCC Micro-Grants Program was developed to quickly fund high quality projects which fill immediate gaps in anti-doping knowledge.

Deadline: Requests are accepted year-round and may take as little as one week to approve.

A FOUNDATION BUILDING STRENGTH (AFBS)

[Building Muscle Initiative Research Grant](#)

This grant aims to advance the science of treating Nemaline Myopathy, ultimately laying the groundwork for the development of commercially available treatments for these diseases.

Deadline: Send a summary of the concept targets prior to applying so that the grantor can provide early feedback about their current strategic direction.

JEFFREY MODELL FOUNDATION

[Specific Defect Research Program](#)

The program supports research to study the mechanisms and presentation of specific defects of the immune system, leading to a better understanding of the conditions and their impact on overall health outcomes.

Deadline: Applications are accepted and reviewed on a rolling basis, so you may apply at any time.

ME RESEARCH UK (MERUK)

[Research Grants](#)

MERUK's priority is novel clinical and biomedical studies that help to unravel the biology of Myalgic Encephalomyelitis (ME)/Chronic Fatigue Syndrome (CFS), and studies that may point towards therapeutic strategies. Applications for pilot studies or seed-corn projects, including those which seek support for consumables rather than staff costs, are particularly welcome.

Deadline: Researchers can send a summary of their research project on a MERUK application form, allowing MERUK to give an opinion about its suitability and feasibility, without requiring submission of a full application.

REFLEX SYMPATHETIC DYSTROPHY SYNDROME ASSOCIATION (RSDSA)

[Research Grants](#)

RSDSA Research Grants are available to support basic or clinical research relevant to the understanding and/or treatment of Complex Regional Pain Syndrome (CRPS), also known as Reflex Sympathetic Dystrophy and Causalgia. There is an emphasis on funding clinical research.

Deadline: RSDSA welcomes letters of inquiry regarding possible research projects throughout the year

CHDI FOUNDATION (CURE HUNTINGTON'S DISEASE INITIATIVE)

[Academic Proposals](#)

Proposals should align with the major focus areas of the foundation, each of which circumscribes a particular aspect of Huntington disease's biology and/or an approach to advancing associated targets, mechanisms and therapeutic candidates: HTT (Huntington gene) Lowering, HTT Structure and Function, Neuronal Dysfunction, Stem Cells and Regenerative Medicine, Unbiased Systems-Based Approaches and DNA Handling and Repair.

Deadline: CHDI does not have a research proposal submission cycle. If you would like to apply for research funding from CHDI, please submit a short summary of your proposal to CHDI.

DIAMOND BLACKFAN ANEMIA FOUNDATION, INC. (DBAF)

[DBAF Research Grants](#)

DBAF aims to advance research initiatives that promote a better understanding, therapeutic strategies and a cure for Diamond Blackfan Anemia (DBA), a rare bone marrow failure syndrome. DBAF Research Grants are available for research contributing to the development of a clearer understanding of DBA.

Deadline: Grant proposals may be submitted at any time throughout the year.

Grants – ICT, Math, Physics and Engineering

AMAZON

[AWS Cloud Credits for Research Program](#)

Aimed at supporting new projects that seek to build a cloud-hosted service, software, or tools; and/or seek to migrate a research process or open data to the cloud.

Deadline: 30 September, 31 December 2020

MICROSOFT

[Azure Compute Grants](#)

For those who already have access to a labeled dataset and are ready to start using Azure AI tools and cloud computing, this grant provides Azure compute credits. The project proposal needs to describe the environmental challenge addressed, the datasets used for analysis, the technical solution proposed, and its potential impact.

Deadline: Proposals are accepted on a rolling basis and reviewed four times a year (5 October 2020 - 11:59 pm PT).

DIGITAL SCIENCE

[Catalyst Grant](#)

This fund nurtures innovative research software ideas and welcomes original and early stage software ideas that help benefit scientific research.

Deadline: 31 December 2020

SIMONS FOUNDATION

[Targeted Grants in Mathematics and Physical Sciences \(MPS\)](#)

The program is intended to support high-risk theoretical mathematics, physics and computer science projects of exceptional promise and scientific importance on a case-by-case basis.

Deadline: Rolling (no letter of intent deadline)

MOZILLA

[Mozilla Open Source Support \(MOSS\) Awards Program](#)

MOSS awards are available in multiple tracks: Track I Foundational Technology; Tracks II & IV Global Mission Partners; Track III Secure Open Source Fund.

Deadline MOSS applications are accepted on a rolling basis and are reviewed monthly.

COMCAST

[Innovation Fund](#)

Supports research that is of mutual interest to Comcast and the research community. It also provides funding to support open source software development.

Deadline: Grants are awarded on a rolling basis throughout the year, so applications can be submitted at any time.

SIMONS FOUNDATION

[Targeted Grants in Mathematics and Physical Sciences \(MPS\)](#)

The program is intended to support high-risk theoretical mathematics, physics and computer science projects of exceptional promise and scientific importance on a case-by-case basis.

Deadline: Rolling (no Letter of Intent deadline)

Grants – Energy and Environment

EUROPEAN COMMISSION

[Efficient Combination of Concentrated Solar Power and Desalination](#)

Several arid and semi-arid regions of the world are highly dependent on desalination and the demand for desalination is projected to grow. Many of these regions also have an abundant solar resource, which is suitable for the application of Concentrated Solar Power (CSP). Several technical aspects need to be addressed to match the thermal cycle of a CSP plant to the energy needs of a desalination system in an effective way.

Support will be given to demonstrated efficient solutions that couple the thermal cycle of a CSP plant to a water desalination system. The proposals are expected to bring technologies to technological readiness level (TRL) 6 at the end of the project activities.

WAITT FAMILY FOUNDATION

[ROC Small Grants](#)

The Rapid Ocean Conservation (ROC) Grants Program provides small grants with a quick turnaround time for solutions to emerging conservation issues. Grants will fund projects related to the Waitt Foundation mission of supporting sustainable fishing and marine protected areas.

Deadline: The funding cycle is open to new applications. There are no deadlines for applying. Proposals are reviewed monthly on a rolling basis.

Grants – Humanities, Law, and Social Sciences

SPENCER FOUNDATION

[Small Research Grants](#)

This fund aims to support smaller scale or pilot research projects contributing to the improvement of education, broadly conceived. The goal of the program is to support rigorous, intellectually ambitious and technically sound research.

Deadline: 3 November 2020

The Law Foundation

[Information Law & Policy Project](#)

Applications for legal research grants, general law grants and Information Law & Policy Project grants, will be considered from institutions, organizations and individuals for projects or research that are in keeping with the principles that guide Law Foundation funding decisions.

Deadlines for grant applications until the Foundation goes into recess are:

Legal Research and General Law grants: 5pm on Friday 31st July 2020.

National Science Foundation

[Security and Preparedness](#)

The Security and Preparedness (SAP) Program supports basic scientific research that advances knowledge and understanding of issues broadly related to global and national security. Research proposals are evaluated on the criteria of intellectual merit and broader impacts; the proposed projects are expected to be theoretically motivated, conceptually precise, methodologically rigorous, and empirically oriented. Substantive areas include (but are not limited to) international relations, global and national security, human security, political violence, state stability, conflict processes, regime transition, international and comparative political economy, and peace science. Moreover, the Program supports research experiences for undergraduate students and infrastructural activities, including methodological innovations. The Program does not fund applied research. In addition, we encourage you to examine the websites for the National Science Foundation's Accountable Institutions and Behavior (AIB) and Law and Science (LS) programs.

Deadlines: August 17, 2020

[Law & Science](#)

The Law & Science Program considers proposals that address social scientific studies of law and law-like systems of rules, as well as studies of how science and technology are applied in legal contexts. The Program is inherently interdisciplinary and multi-methodological. Successful proposals describe research that advances scientific theory and understanding of the connections between human behavior and law, legal institutions, or legal processes; or the interactions of law and basic sciences, including biology, computer and information sciences, STEM education, engineering, geosciences, and math and physical sciences. Scientific studies of law often approach law as dynamic, interacting with multiple arenas, and with the participation of multiple actors.

Deadlines: August 3, 2020

École Polytechnique Fédérale de Lausanne

[Excellence in Africa – Junior Faculty Development program](#)

Mohammed VI Polytechnic University in Morocco and EPFL have launched the Excellence in Africa initiative with the aim of supporting the training of the next generation of researchers in Africa. This

pathbreaking initiative is intended to hone the skills of Africa-based early-stage researchers through collaboration with, and/or supervision by, EPFL professors. It is based on the premise that this will help build their career as professors and thereby enable them to have a significant economic and societal impact in Africa.

Deadlines: August 10th 2020

Harry Frank Guggenheim Foundation

[The Research Grant](#)

The Harry Frank Guggenheim foundation welcomes proposals from any of the natural and social sciences and the humanities that promise to increase understanding of the causes, manifestations, and control of violence and aggression. Highest priority is given to research that can increase understanding and amelioration of urgent problems of violence and aggression in the modern world. Questions that interest the foundation concern violence and aggression in relation to social change, intergroup conflict, war, terrorism, crime, and family relationships, among other subjects. Research with no relevance to understanding human problems will not be supported, nor will proposals to investigate urgent social problems where the foundation cannot be assured that useful, sound research can be done. Priority will also be given to areas and methodologies not receiving adequate attention and support from other funding sources.

Deadlines: August 1, 2020

WILLIAM T. GRANT FOUNDATION

[Institutional Challenge Grant](#)

The Institutional Challenge Grant encourages university-based research institutes, schools, and centers to build sustained research-practice partnerships with public agencies or nonprofit organizations in order to reduce inequality in youth outcomes. Applications are welcome from partnerships in youth-serving areas such as education, justice, child welfare, mental health, immigration, and workforce development. The funder encourages proposals from teams with African American, Latino, Native American, and Asian American members in leadership roles. The partnership leadership team should include the principal investigator from the research institution and the lead from the public agency or nonprofit organization.

Deadline: The online application will open in early-June 2020. The application deadline is September 10, 2020, 3:00 PM EST

Harry Frank Guggenheim Foundation

[The Research Grant](#)

The foundation welcomes proposals from any of the natural and social sciences and the humanities that promise to increase understanding of the causes, manifestations, and control of violence and aggression. Highest priority is given to research that can increase understanding and amelioration of urgent problems of violence and aggression in the modern world. Questions that interest the foundation concern violence and aggression in relation to social change, intergroup conflict, war, terrorism, crime, and family relationships, among other subjects. Research with no relevance to understanding human problems will not be supported, nor will proposals to investigate urgent social problems where the foundation cannot be assured that useful, sound research can be done. Priority will also be given to areas and methodologies not receiving adequate attention and support from other funding sources.

Deadline: 1st August 2020

HARRY FRANK GUGGENHEIM FOUNDATION

[Research Grants](#)

The foundation welcomes proposals from any of the natural and social sciences and the humanities that promise to increase understanding of the causes, manifestations, and control of violence and aggression. Highest priority is given to research that can increase understanding and amelioration of urgent problems of violence and aggression in the modern world.

Deadline: 1 August 2020

ENVIRONMENTAL RESEARCH & EDUCATION FOUNDATION (EREF)

[Research Grants](#)

These grants cover the high priority research topic of residential recycling to support the long-term needs and strategic direction of the solid waste field.

Deadline: Two deadlines per year for pre-proposals 1 December.

Grants – Multi-Discipline, Others

DIGITAL SCIENCE

[Catalyst Grant](#)

This fund nurtures innovative research software ideas and welcomes original and early stage software ideas that help benefit scientific research.

Deadline: 31 December 2020

MICROSOFT

[AI for Earth Grant](#)

This program supports projects on Artificial Intelligence (AI) that address four areas that are vital for building a sustainable future: Agriculture, Biodiversity, Climate Change and Water.

Deadline: Proposals are accepted on a rolling basis and reviewed four times a year (5 October 2020 - 11:59 pm PT).

[Azure Compute Grants](#)

For those who already have access to a labelled dataset and are ready to start using Azure AI tools and cloud computing, this grant provides Azure compute credits. The project proposal needs to describe the environmental challenge addressed, the datasets used for analysis, the technical solution proposed, and its potential impact.

Deadline: Proposals are accepted on a rolling basis and reviewed four times a year (5 October 2020 - 11:59 pm PT)

CPA AUSTRALIA

[Global Research Perspectives Program \(GRPP\)](#)

CPA Australia will consider bold and innovative projects in the following areas: accounting and finance education; reporting; audit and assurance; environmental, social and governance; ethics and professional standards; business issues; taxation; financial planning and wealth management.

Deadline: Expression of Interest by 31 July 2020

JOHN TEMPLETON FOUNDATION

[Small & Large Grants](#)

The foundation is currently accepting Online Funding Inquiries (OFI) for its Core Funding Areas: Science & The Big Questions; Character Virtue Development; Individual Freedom & Free Market; Exceptional Cognitive Talent & Genius; Genetics; Voluntary Family Planning.

Deadline: OFI by 14 August 2020

BAYER AG

[Bayer Partnering in Crop Science \(CS\)](#)

One of the top priorities for the Bayer Crop Science Division is to develop tailored solutions for farmers that are affordable and sustainable for agricultural practice. The aim is to impact the whole food value chain by providing consumers with transparency on the technologies used to produce their food.

Deadline: No submission deadlines. Please apply any time.

FRITZ THYSSEN FOUNDATION

[Research Stipends](#)

This instrument supports highly qualified individual junior scholars that have doctoral degrees in a research project over a limited period. An application can be filed in the following areas of support: History, Language and Culture; The Interdisciplinary Field of “Image–Sound–Language”; State, Economy and Society; Medicine and the Natural Sciences. Funding is reserved for projects that are related to the promotion areas of the foundation and have a clear connection to the German research system.

Deadline: Applications for stipends can be submitted at any time. An answer is generally provided within eight weeks.

IBM

[World Community Grid](#)

Projects in the following disciplines will be run on the World Community Grid: new and existing infectious disease research; natural disasters and hunger; environmental research.

Deadline: Proposals submitted by research organizations will be reviewed on a quarterly basis.

TECHNOLOGY, ENTERTAINMENT, DESIGN (TED)

[The Audacious Project](#)

Every year, the Audacious Project works with proven change-makers to bring to the fore their best, boldest ideas for tackling global problems. The big ideas that are part of The Audacious Project vary widely - from global health to ocean exploration to social justice to education.

Deadline: Submissions are reviewed on a rolling basis and the link will stay open all year.

Prizes and Awards

GRIFOLS S.A.

[Grifols Scientific Awards](#)

Grifols is committed to promoting scientific research as the cornerstone of a process that will lead to better health and quality of life. Grifols grants these scientific awards to encourage and reward innovative solutions in the widest sense, by supporting researchers around the world who focus their efforts and contribute to progress in health sciences.

Deadline: Please check the link for the list of Grifols awards and how to apply.

THRASHER RESEARCH FUND

[E.W. "Al" Thrasher Awards](#)

The purpose of the E.W. "Al" Thrasher Awards is to improve children's health through medical research, with an emphasis on projects that have the potential to translate into clinically meaningful results within a few years.

Deadline: Concept Paper Submission on a rolling basis. The fund awards grants twice a year.

WELLCOME TRUST

[Innovator Awards](#)

These awards support researchers who are transforming great ideas into healthcare innovations that could have a significant impact on human health.

Deadline: Researchers can apply online at any time. Shortlisting meetings are held every three months.

Fellowships/Scholarships

PARTNERSHIP FOR CLEAN COMPETITION (PCC)

[Fellowship Program](#)

Supports qualified scientists who have completed a PhD program, demonstrating strong interest and potential for long-term contributions to anti-doping science (special interest of the fellowship 'The Research Track').

Deadline: Pre-applications by 1 November 2020

THRASHER RESEARCH FUND

[Early Career Award Program](#)

The purpose of this program is to encourage the development of medical research in child health by awarding small grants to new researchers, helping them gain a foothold in this important area.

Deadline: 15 September 2020 (noon Mountain time)

CANCER RESEARCH INSTITUTE (CRI)

[Postdoctoral fellowships](#)

CRI invites postdoctoral fellows working in both fundamental immunology and tumor immunology to apply for funding. Fellows work and continue their training under the guidance of a world-renowned immunologist, who mentors the fellow and prepares him or her for a productive and successful career in cancer immunology.

Deadline: 1 October 2020 (If a deadline falls on a Saturday or Sunday, applications are due the following Monday).

NCL FOUNDATION

[NCL Research Award](#)

In order to find a cure for Juvenile Neuronal Ceroid Lipofuscinosis, scientists from all over the world are encouraged to submit their projects, especially those from related fields like Alzheimer's, ageing and lysosomal storage diseases.

Deadline: Letters of intent can be submitted anytime (follow the instruction for the pre-application as indicated at the link).

Travel/Conferences

MUSCULAR DYSTROPHY ASSOCIATION (MDA)

[Conference Grants](#)

MDA supports conferences, meetings and workshops that facilitate the exchange of scientific ideas and crucial information relevant to diseases covered under the MDA umbrella.

Deadline: Conference grants are accepted on a rolling basis throughout the calendar year. Applications must be submitted at least three months in advance of the meeting.

JUVENILE DIABETES RESEARCH FOUNDATION (JDRF)

[Conference Grant](#)

Proposals for the support of scientific meetings, conferences and workshops relevant to the JDRF mission.

Deadline: Applications for conference support are reviewed on a quarterly basis. Applications are due the quarter prior to the meeting/workshop.

PARKINSON'S FOUNDATION

[Conference Awards](#)

This award supports the gathering of experts in the field working to address unsolved clinical or basic science problems relevant to Parkinson's disease.

Deadline: The application period is open year-round. Applications are accepted anytime but must be submitted at least 90 days prior to the proposed conference start date.

CHILDREN WITH CANCER UK

[Grants for the Support of Conferences and Meetings](#)

This financial support is for events taking place both in the UK and overseas. Events taking place overseas must be international in nature and include collaborators from within the UK (although the organizers may be outside the UK).

Deadline: This funding stream is open throughout the year. Applications where the proposed meeting is less than three months from the submission date will not be accepted.

Research and Grant Training Resources

ELSEVIER RESEARCHER ACADEMY

[Successful research grant applications – getting it right](#)

In this interactive module, we highlight points to keep in mind when preparing your application. We explain how to evaluate your idea and what to consider when identifying grant opportunities. We help you understand what funding bodies look for and share useful tips on preparing your application.

Deadline: The course is self-paced online, and there is no deadline

YALI

[Fundamentals of Grant Writing](#)

This course reviews the basic steps in drafting a grant proposal for funding, including planning, researching and writing a grant as well as best practices for following up with potential funders. The course outlines the different types of funders, what a grant seeker should consider when developing a project idea and how it could be funded, understanding how a proposal will be reviewed and the financial concerns of funders, what typical elements are included in a grant proposal, and managing the relationship with a funder, whether the proposal was successful or rejected.

Deadline: The course is self-paced online, and there is no deadline

FUTURE LEARN

[Discovering Your PhD Potential: Writing a Research Proposal](#)

This online course will give you the awareness, skills and tools to write a well thought-out and achievable research proposal, helping you improve the quality of your postgraduate applications. It will also give you a taste of the self-study required in postgraduate doctoral research. The course focuses on Social Sciences, Arts and Humanities, but much of the content is relevant to all disciplines.

Deadline: The course is self-paced online, and there is no deadline
